PAGES 1 ENCLOSURES (NO. & TYPE) _____

REMARKS _____

25X1

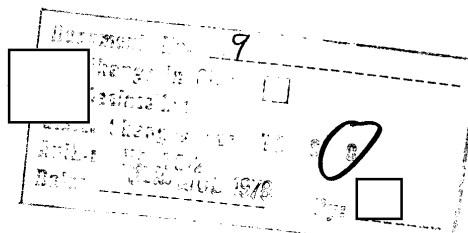

1. On 21 December 1950 about 35 to 40 twin-engine aircraft were parked in front of the closed hangars of the Cottbus (N 52/A 57) airfield. The planes were of the same type previously reported. * There was no flying. The radar set previously seen on the northern edge of the field was removed, except for the mast, which was, however, stripped of the horizontal rods. **

- 25X1 * Comment. The occupation has not changed as compared with the observation of 7 December 1950. Additional PE 2s are probably parked in the hangars. On this basis, it is believed that two bomber regiments are stationed in Cottbus instead of only one as has been assumed. 25X1
- 25X1 ** The radar set was previously reported by 25X1
- 25X1 reported the removal of the set on 6 December 1950. of the same report stated on 7 December 1950, that the set was set up again at another place. The location of the set apparently has been changed frequently, probably to ascertain the most favorable position.
